About

A summary of John Doe...

Work

I met the CTO at Fetch Auto 5 years ago as an intern at Pulse Energy and have been pretty inseparable until now

It's time to strike it out on my own though – he got me to come back and work with him not once, but twice and I'm looking for a place where I can settle down and build similarly close working relationships

Ask me about how I ended up learning Italian on the job, my cadres of co-op students, or when I almost brought down a busy test environment as an intern
