

I met the CTO at Fetch Auto 5 years ago as an intern at Pulse Energy and have been pretty

It's time to strike it out on my own though — he got me to come back and work with him not once, but twice and I'm looking for a place where I can settle down and build similarly close working relationships

Ask me about how I ended up learning Italian on the job, my cadres of co-op students, or when I almost brought down a busy test environment as an

### Fetch Auto

#### Senior Software Developer

February 2017 to June 2018

https://fetchauto.ca

Got called back to Vancouver while travelling abroad by my former team lead at Yardi to help build out the first end-to-end solution for Canadians to buy, sell and finance private sale vehicles

- Took a UI prototype to a fully integrated, production application in less than 6 months
- Rapidly iterated on new features and designs to drive user growth
- Implemented a comprehensive user tracking & analytics platform
- Designed and developed a serverless service platform
- Got asked to be their first employee while passing Sardinia on a container ship

#### Yardi Energy | EnerNOC | Pulse Energy

June 2014 to September 2016

#### Software Developer

Returned to Pulse Energy as a new grad in Summer 2014 looking to further grow my skillset – by year's end we were acquired by EnerNOC and then in Summer 2016 sold off to Yardi

- Mentored and developed co-operative education students
- Led a year-long, platform wide internationalization effort
- Dove deep in support of a platform wide localization effort into Italian
- Designed a centralized, platform wide notification and subscription workflow
- Visited the office and found that much of the code I wrote was still running untouched and error free

## Pulse Energy

January 2013 to August 2013

## Software Developer

I cut my chops at a mid-size start-up that gave utilities like British Gas, PG&E and BC Hydro an understanding of their commercial and industrial customers while serving up actionable energy intelligence for small, medium and large businesses alike

- Built out a service oriented node.js platform atop a legacy Java monolith
- Designed, prototyped and delivered single page, user facing web applications
- Scalably configured applications, services and servers via Chef
- Learned how much a little bit of free food served at the right time can keep spirits high

# Skills

I'm more or less a full stack
JavaScript developer

Education

intain for 5 years

Ask me about my soft skills –

## Front end

- ES6
- react
- redux
- i18n
- a11y
- User analytics

## Back end

- node.js
- Data architecture
- Serverless computing
- Performance tuning
- Microservices
- i18n

## Operations

- AWS
- CloudFormation
- Chef
- Configuration as code
- Network security
- Fault tolerance

September 2009 to June 2014

Computing Science & Political Science

## Simon Fraser University

## Bachelor's degree

#### Highlights

- CMPT 470 Web Information Systems
- CMPT 431 Distributed Systems
- CMPT 305 Computer Simulation and Modelling
- POL 451 Public Policy Analysis

## Interests

For everything else th

#### Auto racing
