About

Recently funemployed code monkey looking to broaden his skillset and horizons, preferrably outside of North America. Prefers fitness balls over fancy chairs, and better to know in person than on paper (or screen)

Work

February 2017 — May 2018

Fetch Auto

February 2017 — May 2018

Senior Software Developer

🔗 https://fetchauto.ca

Got called back to Vancouver while travelling abroad by my former team lead at Yardi to become the first employee at Fetch Auto, the only end-to-end solution for Canadians to buy, sell and finance private sale vehicles

Took a UI prototype to a production application in less than 6 months
Rapidly iterated on new features and designs to drive user growth
Implemented a comprehensive user tracking & analytics platform
Designed and developed a serverless service platform

June 2014 — September 2016

Yardi Energy | EnerNOC | Pulse Energy

Software Developer

🔗 https://pulseenergy.com

Returned to Pulse Energy as a new grad in Summer 2014 looking to broaden his horizons – by 2014's end we were acquired by EnerNOC, and then in Summer 2016 sold off to Yardi

Mentored and developed co-operative education students
Led a year-long, platform wide internationalization effort
Dove deep in support of a platform wide localization effort into Italian
Designed a centralized, platform wide notification and subscription workflow

Pulse Energy

January 2013 — August 2013

Software Developer (co-op)

🔗 https://pulseenergy.com

I cut my chops at a mid-size start-up that gave utilities and energy retailers' an unrivaled understanding of their commercial and industrial customers, and helped dozens of utilities such as British Gas, PG&E, and BC Hydro to transform their businesses with energy intelligence

Built out a service oriented node.js platform atop a legacy Java monolith
Designed, prototyped and delivered single page, user facing web applications
Scalably configured applications, services and servers via Chef

April 2012 — August 2012

Metro Vancouver

April 2012 — August 2012

Project Research Assistant

I was curious about how bureaucracy dealt with data, and I was equal parts surprised and horrified

Maintained and developed internal data manipulaion and entry tools
Performed business analysis, wrote & presented annual financial reports
Performed systems and data analysis, database spot checks and ensured database integrity

August 2011 — December 2011

SAP

August 2011 — December 2011

Software Developer in Test

My first "real"job in the tech sector, where I gained an appreciation for process and automation assessing the daily build quality for Crystal Reports

Administered the daily automated testing of SAP

Business Objects Enterprise for the Crystal Reports team

April 2011 — April 2014

Simon Fraser University

April 2011 — April 2014

IT Technician

🔗 https://itservices.sfu.ca

My first "real" job, pretty much exactly as it sounds – sat at a desk waiting for problems to arise

Helped students and staff with printer, network and other general IT issues
Flamed trolls and policed computing labs, seeking students who could not read the large "NO FOOD AND DRINK" signs

Skills

Front end

ES6
react
redux

Back end

node.js
Spring
Postgres

sass
User testing
UI design
User analytics
i18n
a11y
Data visualization

Redis
Data architecture
Serverless computing
Performance tuning
Service architecture
Microservices
i18n
API security

Operations

AWS
CloudFormation
Chef
Configuration as code
Network security
Fault tolerance
Monitoring
Alerting

Data analysis

Excel
VBA
Python
Jupyter Notebook
R

Education

September 2009 — April 2014

Simon Fraser University

September 2009 — April 2014

Computing Computing Science & Political Science

Science & Political Science
Bachelor's degree

Highlights

CMPT 470 – Web Information Systems
CMPT 431 – Distributed Systems
CMPT 471 – Networking II
CMPT 305 – Computer Simulation and Modelling
POL 451 – Public Policy Analysis
CMPT 475 – Software Engineering II
CMPT 363 – User Interface Design
CMPT 300 – Operating Systems
